

Late Mr. K. S. Sivasithamparam (1965-1967)

Mr. Sivasithamparam assumed duties at Velanai Central College at a time the school needed an able and experienced Science teacher to tone up the Advanced Level classes. He was a Science graduate (B.Sc. Hons.) of London University. On assuming his duties he brought about many changes in the Advanced Level classes. He was also a strict disciplinarian and worked for the creation of healthy traditions.

He was interested in all the college activities and had many plans like holding an exhibition and inter-class competitions. As a first step in this direction, he worked to conduct a Prize Day after a lapse of many years.

Once again it was the misfortune of the school that he had to go on transfer to Nelliadi Central, a school in his home town and so the school community had to bid a farewell with much regret bearing his personal welfare at heart as he was also nearing his retirement. The staff, school administration and parents wished him well. Soon after his retirement, he passed away.

May his soul rest in peace!
